

Semaphore and other codes of lost opportunities.

Flag, flagging, flagged.

Flag this

Wave your flag

I can't wave any more, I'm flagging

It's too late, anyway, the parade has passed

It's not that kind of flag, though

it doesn't matter

But I need to understand

It doesn't matter

Please tell me what you mean

It doesn't matter

Please tell me anything

It

Please

doesn't

please

matter....

It mattered to me.
